

G500

Enterprise WiFi Gateway

Features:

- WiFi gateway appliance to connect your existing WiFi access point deployment
- Traffic from up to 10 wireless access points can be routed through the gateway
- Support up to 500 concurrent user connections
- Support aggregated WAN ports with Active/Standby Internet connection
- Automatic traffic routing based on source IP, destination IP, source port, destination port, domain or workload
- Compatible with mainstream enterprise AP+AC wireless solution
- Support seamless integration with GoBig WiFi Merchant cloud

Description:

G500 is an enterprise WiFi gateway which routes the traffic from up to 10 wireless access

points and supports up to 500 concurrent user connections. G500 has aggregated WAN ports which can have Internet connection from same or different ISP to provide high speed Internet access. G500 is compatible with mainstream enterprise AP+AC wireless solution, which makes it easy to design a wireless solution for different application scenario.

Specifications:

CPU	Intel ATOM D525 Dual core 4 thread 1.8G
Memory	DDR3 1333 2GB, maximum 4GB
Hard disk	1GB SLC industry grade CF
NIC	intel PCI-E 1000M 6*82583v
Power supply	12V 8.5A 100W
Enclosure	Anti-shock sheet metal chassis
Cooling systems	Fan
Weight	8.82 Lbs
Dimensions (W X D X H)	16.93 x 10.24 x 1.77 Inch
Environment	Operating temperature: 32°F to 104°F Storage temperature: -4°F to 158°F Operating humidity: 10% to 90%RH Non-condensing Storage humidity: 5% to 90%RH Non-condensing
